## About this document

This document (RN-99PRT002-04, August 2022) provides late-breaking information about Protector Connector for VMware vRealize Orchestrator (Protector Connector for vRO) Version 1.6.2. It includes information that was not available at the time the technical documentation for this product was published, as well as a list of known problems and solutions.

## Intended audience

This document is intended for customers and Hitachi Vantara partners who license and use the Protector Connector for VMware vRealize Orchestrator (or the previous version known as HDID Connector for VMware vRealize Orchestrator (HDID Connector for vRO)).

# Accessing product downloads

Product software, drivers, and firmware downloads are available on Hitachi Vantara Support Connect: <https://support.hitachivantara.com/>.

Log in and select Product Downloads to access the most current downloads, including important updates that may have been made after the release of the product.

## Getting help

[Hitachi Vantara Support Connect](https://support.hitachivantara.com/) is the destination for technical support of products and solutions sold by Hitachi Vantara. To contact technical support, log on to Hitachi Vantara Support Connect for contact information:

[https://support.hitachivantara.com/en\\_us/contact-us.html](https://support.hitachivantara.com/en_us/contact-us.html).

Product user documentation is available on Hitachi Vantara Support Connect: <https://knowledge.hitachivantara.com/Documents>. Check this site for the most current documentation, including important updates that may have been made after the release of the product.

[Hitachi Vantara Community](https://community.hitachivantara.com/) is a global online community for customers, partners, independent software vendors, employees, and prospects. It is the destination to get answers, discover insights, and make connections. **Join the conversation today!** Go to [community.hitachivantara.com](https://community.hitachivantara.com/), register, and complete your profile.

## About this release

This maintenance release ensures compatibility with Protector 7.5 and above.

## System requirements

For information about the supported operating systems and hardware requirements, see:

<https://www.hitachivantara.com/en-us/products/data-protection/ops-center-protector.specifications.html>

## Prerequisites

- HDID 6.7+, Protector 7.0+
- VMware vRealize Orchestrator 7.4+, 8.x
- ESXi host version 6.5 or later.

## Resolved Problems in 1.6.2

The following table lists the problems that are resolved in this release by defect ID.

Problem ID	Description
ZEN- 48713	vRO Cannot perform Ad Hoc Backup with Protector 7.5

## Known Problems

The following table lists the problems that are resolved in this release by defect ID.

Problem ID	Description	Workaround/Comments
ZEN-41630	vRO does not support cloning or restoring snapshots in a snapshot pool. They must be in a dynamic or hybrid pool.	The snapshots must be in a dynamic or hybrid pool.
ZEN-24562	If two VMs with the same name are part of a Gen1 backup, Protector cannot distinguish between them at restore time. When using the vRO interface, only one VM is listed.	
ZEN-42112	no Ad Hoc Tag in vSphere results in vRO not cleaning Master Dataflow state	
ZEN-47184	vRO Connector cannot find Ad Hoc Dataflow name when case does not match documented name	
ZEN-47237	vRO cannot restore cascaded snapshots	

# Installation and User Guide

Product documentation is available on Hitachi Vantara Support Connect:  
<https://knowledge.hitachivantara.com/Documents>

Check this site for the most current documentation, including important updates that may have been made after the release of the product.

Document name	Document number	Issue date
Ops Center Protector VMware Application Guide	MK-99PRT004-06	August 2022
